### BOTH SIDES AWARE IT IS A BLUFF

Washington, Sept. 7.—The attitude of the Allies toward the American trade legislation will be determined by a Grand Trade Council of ten belligerents at Paris.

Entente diplomats here said no action would be taken until authority was received from the council. A formal protest is expected if the president puts the retaliation measures into effect. Secretary Lansing said the state department felt that resources of diplomacy were not exhausted to remove illegal restrictions from American trade and that there would be no disposition to put into effect legislative weapons unless the attitude of the allies were "unfriendly."

### SHIPS CARRYING AMERICANS SUNK

(Associated Press)

Washington, Sept. 7.—The sinking of two vessels in the European war zone with Americans aboard was reported to the state department yesterday by American consular officers. The state department will investigate both incidents to determine if American rights have been violated. There is no information at hand to indicate that either vessel was attacked illegally.

A dispatch from Consul McCunn at Glasgow announced that there were twenty-eight Americans on board the British steamer Kelvina when she was sunk by a mine or torpedo Sept. 2 while bound from Newport News, to Avonmouth and Glasgow. All of the Americans, muleteers, were rescued and are now in Glasgow.

Consul Hurst at Barcelona, Spain, reported that two "presumable" Americans, James Andrews and Lon Bruce were among the crew of the Italian sailing vessel Stella Delmare, sunk by a submarine off the Balearic islands on August 29. The message did not state whether the crew was saved nor give the addresses of the two members believed to be American citizens.

Miss Maud Marshall returned to her home in Ocala last Sunday after spending a while very pleasantly here the guest of Miss Leone Brooks.

Syrup making seems to be the order of the day now as quite a number of our farmers are busy grinding cane.

Our community was cast into grief last Thursday morning when it became known that Mrs. W. R. Roe had passed into the great beyond. Mrs. Roe had been sick for some weeks but she bore her sickness without a murmur. The little folks at Sunday school will miss her as she was teacher of the primary class up to a short time before her death. She was a consistent member of the Fellowship Baptist church. Her remains were buried by the side of the resting place of her little son who preceded her many years ago. Mrs. Roe was 52 years of age. She leaves one son, Coyle and her husband, Mr. W. R. Roe. The sympathy of the community is extended to the bereaved ones.

Miss Bessie Marshall arrived Sunday and will be the guest of Miss Lora Brooks for a few days.

Miss Floy McCully left last Sunday for Homeland, where she will teach school for the coming term.

Mr. Roy Mathews of Zuber is a frequent visitor in Berlin. Must be some attraction here. Come, again good friend, we are always glad to see you.

Mr. Robert Thomas of McIntosh accompanied by his mother, sisters and brothers, were callers in Berlin Sunday afternoon.

Miss Annie Mae Nettles returned to her home at Flemington last Sunday after a week's visit with Miss Mattie Mills.

The young ladies and mothers are indebted to Miss Mabel Beck, who organized an eight weeks club for the young women in this neighborhood while most of the girls were home on a vacation. This organization has proved a wonderful success under the leadership of Miss Beck, as they meet every Saturday afternoon from house to house. Home economics and domestic economics were taken up and the work of Christian endeavor under the national secretary, Miss Jessie

## UNABLE TO ADJOURN

### Senate and House Can't Finish Their Work Before Saturday

(Associated Press)

Washington, Sept. 7.—Plans of the Administration leaders to adjourn Congress today were abandoned last night when the conferees on the revenue bill indicated that they could not reach an agreement until today at the earliest. There is a possibility that the report will not be ready before Friday and the adjournment, was postponed until Saturday.

In the Senate a filibuster also developed against the passage of the Corrupt Practice Bill. The general deficiency bills again came up in conference pending the action of the revenue bill, and leaders also expect the debate on the conference report on the revenue bill to last many hours. Senator Kern, majority leader, said that he did not look for an adjournment before Saturday.

**STAFF SELECTED**

### Of Chosen Men to Accompany Wilson On His Vacation

(Associated Press)

Washington, Sept. 7.—Arrangements have been completed for the staff to accompany President Wilson on his vacation.

Field. These meetings proved beneficial socially, morally and spiritually. Their motto was, "If you cannot be a large stream bearing great vessels of blessings to the world, you can be a small spring stationing by the wayside of life singing merrily all the day and night, giving a cup of cool water to every weary thirsty one who passeth by."

Knowing the members of the Baptist church of Fellowship were trying to raise enough money to repair and do some other repairs to the church, the members of this club began asking themselves, why stand ye idle? We are here for the betterment of every condition. So just two weeks ago they decided to give a play entitled "The Voice of Authority."

The characters consisted of eight young ladies and one young man, and the play was given last Friday night. The weather was ideal and there was a large crowd out, the drama was perfect and those who missed seeing the play missed a treat. Miss Beck was complimented for her success as a leader, and so were all the other young ladies complimented for the way they acted their parts. Ice cream was sold in connection with the play and a neat little sum was netted. This organization is bound to have its part in all affairs in this vicinity which are for the betterment of general conditions.

### PUBLICITY FOR MARION COUNTY PIGS

Today's Times-Union contains a write-up of the Marion county pig club's Hampshire hogs, by Mr. A. P. Spencer, district agent. The article is accompanied by a picture of some of the Hampshires. Marion county is getting a wealth of publicity as a result of its determination to adopt one breed of hogs.

"The most substantial thing any of the bankers have done in the state is to buy brood sows in the quantity the Marion county bankers have recently bought them," says Mr. Spencer.

"If the farmers and farmer's boys will hold up the standard they have undertaken there should be about 1,000 pure-bred Hampshire hogs from these sows in the next twelve months distributed throughout the county. Surely it does not take a far-sighted business man many minutes to see the substantial side of such a proposition," Mr. Spencer says.

At the latter place they met Mr. Walter Mann, also once a resident of this county. He has a lovely home there. Bartow was the next stop, but only for gas. Bowling Green, their destination, was the next stop. The only trouble on the entire trip was one puncture. This trip was made in two days, stopping at leisure along the way. At Bowling Green they were guests of Mrs. Marion Bryan. Miss Barco visited friends at Fort Green, Plant City, Kathleen and her sister at Croom, before returning.

Mr. Barco is still at Bowling Green, with his wife and children, who are enjoying a visit with Mrs. Barco's mother.

The writer with other friends visited the cemetery Sunday afternoon, and was surprised to find such a wilderness. So much rain has caused the weeds and grass to grow so fast, the place has a neglected and forsaken appearance. Let's appoint a day, as we did last year, and clean up the grounds and see that the city of our dead is put in good condition. The ladies can prepare the baskets and the men do the work. All who have loved ones resting there should feel an interest in this work. Who will be the first to say, "Here am I, send me?"

## STREETCAR STRIKE IN N. Y. CITY

### SEEMS TO BE A FAILURE FROM THE STANDPOINT OF THE STRIKERS

(Associated Press)

New York, Sept. 7.—There is a strike on the subway and elevated lines and several surface systems of the Interborough Rapid Transit company in the Bronx and Manhattan boroughs. Up to noon today the city was only slightly affected.

Union leaders, who demand the abrogation of the so-called "master and servant" contracts, binding the employees not to seek wage increases for two years, claimed that 9,000 men struck. The New York Railway company's "green car" is chiefly affected. Apparently not more than thirty per cent of these surface cars are running. The New York company announced the recent agreements with its employees were abrogated, effective today. The Interborough announced that all of its men not striking will receive double pay until further notice. There have been a few minor disturbances on the East Side.
